

defines the speed of the movieclip

```

}
onClipEvent (enterFrame) {
    this._y += speed;
    this._x += _parent.interval-3;
    if (this._y>_parent.mh+20) {
        this.removeMovieClip();
    }
}

```

- Again create a Movie clip with a name 'ice_bit'.
- To do this, again go to Insert > New Symbol.
- Type 'ice_bit'
- Click OK.

- Keep it empty and go back to Scene1.
