

- Now after the above action is completed, come back to the Star_mc movie clip.
- Give the movie clip an instance name.
- Here the movie clip is named as 'star1'.

- Add a Keyframe in the 15th frame.
- Click on 40th frame and press [F5] to insert frame.

- Now select Keyframe 1 and add this script.

```
i = 2;
while (Number(i)<100) {
    duplicateMovieClip(star1, "star" + i, i);
    setProperty("star" + i, _rotation, random(360));
    scalefactor = 40+Number(random(60));
    setProperty("star" + i, _xscale, scalefactor);
    setProperty("star" + i, _yscale, scalefactor);
    i = Number(i)+1;
}
```
