

- Now, move back to the main Timeline.
- Select the heart.
- In the Instance name type name as “heart”.

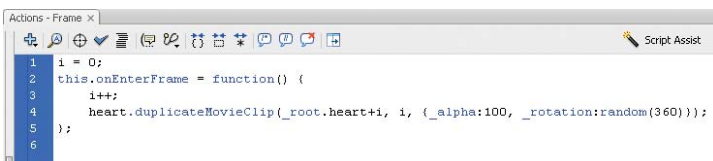

- Add this script:

- Select the first frame from the Timeline
- Now, open the Actions Script Panel.

```
i = 0;
this.onEnterFrame =
function() {
    i++;
}
```

```
heart.duplicateMovieClip(_root.heart+i, i,
{ _alpha:100, _rotation:random(360) });
```

- Now click on the heart movie clip.
- Again open the Actions Script Panel.
- Add this script.

```
onClipEvent (enterFrame) {
    if (random(300) == 0) {
        removeMovieClip(this);
    }
}
```
