

- Here set the colour to light blue (#87B7E7) and alpha properties to 100%.
- You can see that the picture appears somewhat like this.
- While the picture is still selected press [F8].
- Type the name as "Circle_mc" and click on Movie clip.
- Keep the Movie clip selected and open the Properties Inspector.
- Type the instance name as 'object'.

- Next select the Text layer and right click on it to choose 'Mask'.

8.7 Mouse Trail

(Note for developer: dimension – 550 x 400 px, Frame Rate – 20 fps, Background color - black)
Let's learn to create mouse trail using the Action Script. So let's start.
