

- with a suitable font and font size
- iii. Set the Text Type of both the Texts as Input Text from the Property Inspector Panel
 - iv. Set the variable name of the 1st Text field as i and second as j in the Var field
 - v. Now draw a rectangle in another layer

Property Inspector Panel

Properties Box

- vi. Press F8
- vii. A dialog box appears on the screen
- viii. Select the 'Button' option
- ix. Click OK
- x. Take a new layer
- xi. Now at the 1st frame of the New layer declare 'K' as a variable
- xii. To do this you have to add the following script to the 1st Frame and initialize it with 0

Dialog Box

Actions Frame

```
var k;  
k=0;
```

- xiii. Now right click on the button and choose Action

- xiv. Here add the following Script on (release) {
k = i;

Actions Button
