

- Set the text type of these text boxes to Static text
- Place these two static text boxes besides the above dynamic text boxes accordingly
- Now create another Layer and name it as Actions
- Select the first keyframe and right click on it
- Choose Actions
- The Action Script window opens
- Here type the following script

```
Script:
maximumValue = function (array) {
    max = array[0];
    for (i=0; i<array.length; i++) {
        if (array[i]>max) {
            max = array[i];
        }
    }
    return max;
};
minimumValue = function (array) {
    min = array[0];
    for (i=0; i<array.length; i++) {
        if (array[i]<min) {
            min = array[i];
        }
    }
    return min;
};
k = new Array();
k = [12, 5, 63, 7, 1, -1, 352, 36, 754, 75, 56,
74];
text=k;
mx=maximumValue(k);
mn=minimumValue(k);
```

- Once the script has been written, press (Ctrl+Enter) to run the application.
