

```
        // we should now have the serialized data in
$tmp[0].
    $session_data = unserialize($tmp[0]);
    if (!is_array($session_data)) {
        // something went wrong, initialize to
empty array
        $session_data = array();
    }
}
?>
```
