

them unstructured.

Let us go over some rules for complying with the XML standard.

- An XML document can have only one root tag. This is shown as follows.

Correct Syntax	Incorrect Syntax
<pre><todo> <task duration="12mins" completed="No"> Get Milk </task> <task duration="30mins" completed="Yes"> Dry-clean Rug </task> <task duration="5hrs" completed="No"> Complete report </task> </todo></pre>	<pre><task duration="12mins" completed="No"> Get Milk </task> <task duration="30mins" completed="Yes"> Dry-clean Rug </task> <task duration="5hrs" completed="No"> Complete report </task></pre>

- Each opening element must have a closing element.

Correct Syntax	Incorrect Syntax
<pre><todo> <task duration="12mins" completed="No"> Get Milk </task> <task duration="30mins" completed="Yes"> Dry-clean Rug </task> <task duration="5hrs" completed="No"> Complete report </task> </todo></pre>	<pre><todo> <taskduration="12mins" completed="No"> Get Milk <taskduration="30mins" completed="Yes"> Dry-clean Rug </task> <task duration="5hrs" completed="No"> Complete report </task></pre>
