

on the left, and selecting New Collection.

In order to add a note to a desired collection, you need to select it from the quick selection pane on the left and then

Create a new collection based on how you want to sort your notes and reminders

use the quick entry field on the top to add your notes. You can also just right-click on the notes pane and choose New > Note, or use the shortcuts given there as well.

You can use the shortcut keys shown to add different types of notes.
