# List of changes
%changelog
* Wed May 13 2009 - Glynn Foster <glynn.foster@sun.
com>
- Add setup phase to unpack tarball
* Tue May 12 2009 - Glynn Foster <glynn.foster@sun.
com>
- Initial version
```

As you will notice from the above spec file, it is divided into the different sections listed above. In the information section, we specify the package name, description, version, location of the source, license, any software packages that we are dependent on, and additional package meta-data that
