

flavours viz : Basic reseller, Pro reseller and the Super seller. The disk space and bandwidth offered on each of these plans is not mentioned anywhere on the website, so we are assuming it is unlimited. It offers Turnkey reseller plans as well as API reseller plans.

Custom website designing and custom logo design can be availed for a price of \$44.49 and \$475 respectively.

Each plan comes with a range of free options for instance having your own reseller website up and running within minutes of registration, including shopping cart and credit card processing functions. Your customers can avail the 24/7 help for any sort of issues. Resellers also get a site analytics tool free which can give important real-time site statistics. Also with each plan you get some free Google AdWord credit.

As compared to other sites, the domain names registration in WWD is much cheaper at \$7.80 for a .com TLD.

User friendliness : Its a very user unfriendly site as apart from the cost of the plans there is no clear cut explanation as to what options are available with each plan. For instance we trying to search for the disk space and bandwidth that would accompany each plan but came across none. Also once you decide on a plan and add it to the cart, there are countless other things or offers on the page which completely overwhelms a user (specially a new comer).

Customer Service: While the online help offered got a thumbs up, some resellers were had some issues like if a domain was at a WWD reseller, you couldn't push to another Godaddy, and could get stuck with a higher priced renewal at some reseller sites.

Payment Options: PayPal, Credit cards

Its a very user unfriendly site as apart from the cost of the plans there is no clear cut explanation as to what options are available with each plan. Also once you decide on a plan and add it to the cart, there are countless other things or offers on the page which completely overwhelms a user (specially a new comer)

Plans :			
Name	Price (in \$)	Google AdWord Credit (in \$)	Free Bonus and Extra softwares worth (in \$)
Basic Reseller	99.99 / year	75	480
