Comparison of Reseller Club with OpenSRS and eNom

does not have to mandatorily buy, but he/she can resell them. Although the website advertises that it supports 16 languages, it needs to be known that support for Indian languages is still not present.

Website builder package is available at a nominal pricing based on the the number of web pages you are looking at. This package includes a host of options in terms of content management features, website marketing features as well as e-commerce features if you have want to build an ecommerce site.

In case you do not have funds in your Reseller Account, and your Customer places an order, the order will be under 'Pending Execution' status. The order will be executed once you add the required amount of funds

As this is a white labeled registration every single interface that you can provide to your customers is completely brandable such that your customers or sub resellers never know that Reseller Club is the service provider.

The live chat is of great help and we chatted with a ResellerClub exective for a good 20 minutes clearing all the nagging doubts we may have had. Help was prompt and relevant.
