

Another good aspect is a 30-day money back guarantee without any questions. Your account is activated within four hours of your having made a payment with a verified Paypal account.

User Friendliness: The site is very user friendly and easy to navigate through. The services and plans are all arranged in horizontal tabs. The features tab gives complete information on things like the architecture, Supersite, partner site, control panel etc. It is quite informative along with the screen shots.

Mocha Host

Website: www.mochahost.com

Alexa Traffic Rank: 13,998
