

first few results whenever someone searches for web hosting or domain name registration in India. But the idea is to eventually get there. In the beginning referrals is the only way to go. But where do your potential clients come to? That's your website.

6.1 What goes into a good reseller website?

Most providers who offer reseller accounts like resellerclub or godaddy will give you a template to set up your own website. You can replace the default colour schemes with your own. You can even put in your logo and make other custom changes. The advantage is that you get certain features by default such as the relevant buttons and links. For example a

Check domain box

domain lookup feature is provided in the template.

The template also comes with certain other features such as the various control panels that are supported and their tutorials. There are certain elements that are necessary for your website to be more attractive and user friendly to your clients. Potential clients need to be able to contact you in more than one way. You as a service provider should be approachable, not only by say email or phone but other methods as well. Most reseller websites have a contact us type of feature to request for a
