

a dialog where you can enter the phone number to use for listening to and managing your voicemail. You can enter a comma (,) to insert a pause into the number—for example, to add a password after the phone number

- **Call forwarding:** Opens a screen where you can configure how your calls are forwarded when you're on the phone, when you don't answer, and so on.

5.3.2 Additional settings

- **Call waiting:** Check to see and respond to new calls when you're already on a call.

5.4 Sound settings

Use the Sound settings to configure how and at what volume the phone rings, vibrates, or alerts you in other ways when you receive a call, you receive a notification, or an alarm sounds. You also use these settings to set the volume for music or other media with audio, and some related settings.

- **Silent mode:** Check to silence all sounds (including call and notification ringtones) except the audio from music, videos, and other media and any alarms you have set. (You must silence media and alarms in their own applications.)
- **Vibrate:** Opens a dialog where you can configure when you want the phone to vibrate when you receive a phone call or notification: Always, never, only when the phone is in Silent mode, or only when the phone is not in Silent mode.
- **Volume:** Opens a dialog where you can set the volume of ringtones that sound when you receive a phone call or notification, media (music, videos, an so on), and alarms. If you uncheck the option to use the same volume for both calls and notifications, you can set the notification ringtone volume independently.
- **Phone Ringtone:** Opens a dialog where you can select the ringtone to sound when you receive a phone call. Touch a ringtone to listen to it. You
