

is no SD card installed, if you have already unmounted it, or if you have mounted the SD card on your computer. There is no equivalent setting for phones with USB storage.

- **Erase USB storage or Erase SD card:** Permanently erases everything on your phone's USB storage or SD card and prepares it for use with your phone.
- **Internal storage:** The amount of internal phone storage used by the operating system, its components, applications (including those you downloaded there), and their permanent and temporary data.

5.11 Language and keyboard settings

Use the Language & Keyboard settings to select the language for the text on your phone and for configuring the onscreen keyboard, including words that you've added to its dictionary.

5.11.1 Language and keyboard screen

- **Select language:** Opens the Language screen, where you can select the language to use for the text on your phone.
- **User dictionary:** Opens a list of the words you've added to the dictionary. Touch a word to edit or delete it. Press Menu and touch Add to add a word.

5.11.2 Android Keyboard settings screen

The Android Keyboard settings apply to the onscreen keyboard that is included with your phone. The correction and capitalisation features affect only the English version of the keyboard.

- **Vibrate on keypress:** Check to have the phone vibrate briefly each time you touch a key on the on-screen keyboard.
- **Sound on keypress:** Check to play a brief sound each time you touch a key on the on-screen keyboard.
- **Popup on keypress:** Uncheck to prevent a larger image of each key from displaying above the key (out from under your finger) when you touch it.
- **Touch to correct words:** Uncheck to turn off the feature that underlines a word in a text field if you touch the word and the keyboard has suggestions for other words you may have intended.
- **Auto-capitalisation:** Check to have the on-screen keyboard automatically capitalize the first letter of the first word after a period, the first word in a text field, and each word in name fields.
- **Show settings key:** Opens a dialog where you can set whether you want
