1.3 The Viewports

There are viewports at the centre of the 3ds Max workspace. All of your major modelling work is done here. When you open a new 3ds max file or project, the viewports show a grid that you will use as a reference for orientation and size. At the lower left corner of the viewport, you should be able to find the World Axis Tripod that indicates the orientation of the X-, Y-, and Z-axes. The World

Four different viewports – Top, Front, Perspective and left (in clockwise order)
