App appearance and information resources

Trust issues

Another important thing required is that you verify the ownership of the website on which the app is hosted using Google's Webmaster Tools. If you have no previously verified websites, just follow the simple instructions after adding a new website to be verified.

App constants

To identify your web app, the Web Store provides you with an App ID. You

Google Analytics tracking

→ Your Google Analytics ID: UA- (example: 1234567-1)
