

Wikihow

This app teaches you the most important thing of all-survival. Right from doing extreme things like defending a tiger attack to simple things like changing your tire. It also has comprehensive articles on CPR, choking, natural disasters which can also be accessed online. You will find a way out of every situation that you can ever land up in.

This is the key to
your survival

Todo.ly

Todo.ly is a great app to create your todo lists for everyday work, ranging from business meetings to changing the batteries of your remote. You can set reminders and assign due dates to tasks and the app will automatically notify you as the deadlines come closer. 

You will never
miss anything
again
