If the userID is set, then the user is welcomed into the app; else, he/she finds the login box.

```
• <?php if (!isset($_SESSION['userId'])): ?>
• <a href="javascript:" onclick="openPopup(450, 500,
this);">Sign in</a>
• <?php else: ?>
• <span>Welcome <?php echo @$_SESSION['attributes']
['namePerson/first'] ?><?php echo @$_SESSION['attributes']
['namePerson/last'] ?> ( <?php echo $_SESSION['attributes']
['contact/email'] ?> )</span>
• <a href="?logout">Sign out</a>
• <?phpendif; ?>
• </nav>
• <?php if (isset($_SESSION['attributes'])): ?>
• <div id="container">
```

When the form is submitted, the licence server is queried to know what type of membership the user has. Accordingly, the access levels are set.

```
• <form action="<?php echo "$selfUrl?queryLicenseServer"
?>" onsubmit="return queryLicenseServer(this);">
• <input type="hidden" id="user _ id" name="user _ id"
value="<?php echo $_SESSION['userId'] ?>" />
• <input type="submit" value="Check user's access" />
• </form>
• <div id="license-server-response"></div>
• </div>
• <?phpendif; ?>
