01

CHAPTER

Getting started

Facebook is the most popular social networking platform on the internet. To get started, fill in your details and validate your email.

02

CHAPTER

Basic features

Once you've created your profile, it's time to expand your list of acquaintances, friends and family.

03

CHAPTER

Facebook for business

If there's one reason why Facebook is not going to be toppled as a significant player in social networking circles it's the sheer marketing and business potential it holds.

04

CHAPTER

Facebook privacy

Remember the days of IM in its infancy, when anonymity was the need of the hour? Times have changed, thankfully!

05

CHAPTER

Safety features in Facebook

As we have seen, Facebook ensures your privacy is respected. However, with safety features inbuilt, Facebook also ensures your safety to a significant extent.
