

Resource Explorer Properties tab

tion resources, you can use the form's ID (IDF_MAINFORM in the following example) to construct the form in your application code:

```

• bool Form1::Initialize()
• {
•     Form::Construct(L"IDF _ MAINFORM");
•     ...
•     SetFormStyle(FORM _ STYLE _ NORMAL | FORM _ STYLE _ INDI-
• CATOR | FORM _ STYLE _ HEADER | FORM _ STYLE _ FOOTER);
• }

```
