

MAN ON THE MOON

“That’s one small step for man, one giant leap for mankind”

Like with any momentous achievement in the history of mankind, the Apollo program had its share of setbacks as well.

By the time the scientists got around to testing its flights, US President Kennedy had long been dead, killed in an assassination. But out of his memory and ambition to put a man on the moon, the Apollo programme got a further boost in funding as well as public support.

And then there was the Apollo 1 tragedy...

Apollo 1

On January 27, 1967, the Apollo launch team was hard at work at Launch
