

Titanium Backup has a few additional features like the ability to freeze apps or forcibly attach sideloaded apps to the Google Play Store.

3. Use an ad-blocker to block ads

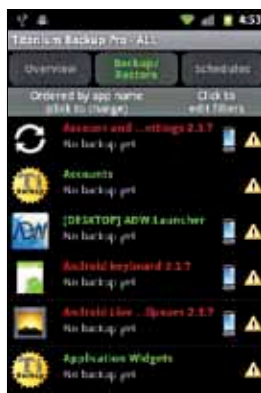

Ever downloaded a really engaging app only to find that it displays annoying ads while you use it? The constant polling by the app has been shown to consume a large amount of battery. Ad-Away and Ad-Free are root apps that modify the hosts file located in `/etc/hosts` and block most (if not all) ads for you.

4. Turn your phone into a portable Wi-Fi hotspot

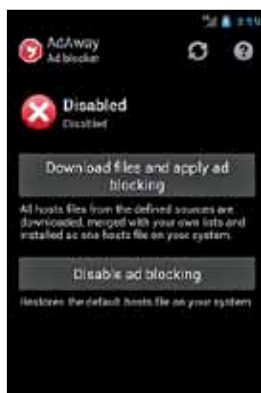

This is a handy feature for phones with a data plan. If you ever find yourself without an internet connection for your laptop/tablet and can't find a data cable for your phone, you can tether your phone's

Wireless Tether can turn your rooted Android phone into a portable Wi-Fi hotspot

Titanium Backup can securely backup your apps and data

Block those annoying ads within your apps with Adaway

internet connection by turning your phone into Wi-Fi hotspot. The network will show up on your other Wi-Fi enabled devices like a regular wireless network.

5. Extend your phone's battery life

Smartphones are notorious for their poor battery life and it's not uncommon to have to charge your phone for a few hours everyday. Juice Defender can optimize your phone's battery life by creating profiles and turning on/off power-hungry settings when not in use. It
