

WHAT IS CRYPTOGRAPHY?

This chapter gives you an introduction to the mysterious world ciphers, codes and other secret forms of communication

E PFT UIJT MPPL MJLF OPOTFOTF UP ZPV? Does this look like nonsense to you? Did you notice that we asked you the same question twice? Confused?

Look at the set of random alphabets in that first “sentence”. Replace each letter with the letter which comes before it in the alphabet e.g. replace B with A, P with O, F with E and so on and reread the sentence. It’s easy but in case you’re slow (which we doubt considering you’re a Digit
