

CHAPTER #7

CYBER WARFARE

Find out how the wars of the future are going to play out... In cyberspace

Byline: "Some men just want to watch the world burn"

– Alfred Pennyworth (The Dark Knight).

Before we go further, here is what Wikipedia says about cyber warfare: *"Cyberwarfare refers to politically motivated hacking to conduct sabotage and espionage. It is a form of information warfare sometimes seen as analogous to conventional warfare although this analogy is controversial for both its accuracy and its political motivation."*

Cyber warfare might not be the biggest news as of now, but there has been speculation, based on reported incidents, that it has been performed in the past and that it will only grow in days to come.
