Zoom out on Start Screen	Ctel+Minus
Open command bar	Win+Z
Switch to Desktop from Modern UI app	Win+D
Snap app to the right	Win+Period
Snap app to the left	Win+Shift+Period
Move app to next monitor	Win+PgDown
Move app to previous monitor	Win+PgUp
Switch between Modern UI apps	Win+Tab
Show Quick Link menu	Win+X

There is another interesting little shortcut in Windows 8 but has little to do with any new features. Windows 8 now includes a single shortcut that will automatically take a screenshot of your entire desktop, and save it to a PNG file in the Screenshots folder in your Pictures library. The shortcut is simple; [Win]+[Print Screen].
