

PRODUCTIVITY APPS

Having trouble keeping up with work timelines or personal expenses? The solution to all such troubles lie in our list of productivity apps that'll make leading a prolific life as simple as clicking the download button

Cell phones and the internet have made us procrastinators. It takes a single YouTube video or a Whatsapp ping to get us distracted. Indeed, playing Angry Birds on the phone is far more appealing than working on those boring spreadsheets. The to-do lists are often used for doodling. We're all suddenly insomniacs thanks to those late night conversations. On a scale of one to ten, downloading the new episode of our favourite sitcom is right at the top and cleaning our cupboards is at a staggering 10. We fail to recognize the potential of work we can accomplish using our smart phones. There are tons of productivity apps that will motivate you and simplify your life. From calendars, organizers and memos to apps that will help you sync and share all your data, we've whipped up a list of productivity apps that'll help you stay focused and inspired, and certainly get some work done.
