

Todoist

If you've been struggling staying organized, download the Todoist app right away. The to-do list and task manager app keeps your to-dos in sync across multiple devices. The app enables you to get organized by letting you create projects and add tasks to them. The app lets you add various details to each task like deadline, priority labels and classic tick boxes to strike one your task has been accomplished. We know that there are tons of task manager and to-do list apps out there. But the reason why ToDoist stands out is first because it's free, second it lets you access your tasks online and offline and last but most importantly, it's one of the most clutter-free to-do list

apps out there.

Wonderful Day

When it comes to accomplishing tasks and targets for the month, small steps matter. Small steps like accomplishing the tiny tasks everyday. There are tons of to-do list apps out there. But Wonderful Day ensures that we get our tasks done every day. The app helps you set daily goals and tracks their progress over a period of time. Wonderful Day challenges you by motivating you to not break the chain of progress. The app also lets you share a goal chart with friends on Twitter via the Won-

derful Day app.
