

SnapDeal

From clothes, shoes, mobile phones to groceries, jewelry and dinner deals - we've all turned to online shopping websites at some point or another. It's safe to say that the e-commerce industry has touched almost all spheres of modern day life. And the website that recognizes this trend well is India's largest e-commerce giant, Snapdeal.com. The Indian e-commerce website's free app on the Android and Windows Phone, allows users to access various brands, products, offers and

services on-the-go. Based on your location, the Snapdeal app tailors a range of products and services for its users. The app also lets you make secure payments using credit card. And if you love a certain product on the website, you can share your favourite products or deal on social networking

websites like Facebook and Twitter.

AutoMeterFare India

Wondering if the rickshaw meter reading is accurate? Worry not because there's AutoMeterFare India app. All it requires is for you to input meter reading in kilometers and hit the calculate button to know the fare you need to pay. Travelling late? You can enable the night time meter surcharge reading. The AutoMeterFare India app has quick shortcuts to call the relevant authorities directly from the app in case you think the auto meter fare is faulty. The app is currently useful for Delhi, Mumbai, Ahmedabad, Chandigarh, Bangalore, Hyderabad, Trivandrum and Pune. AutoMeterFare India saves you from being conned.
