

Pinterest

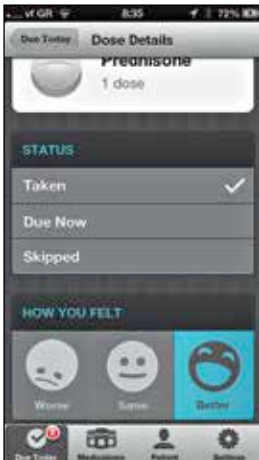

Pinterest is a social networking website that lets you organize and share all the things that you like on the internet. Simply put, it's a virtual pinboard that lets you 'pin' images and website links in the form of pictures. The pinning and browsing on the Pinterest app is quite smooth. You can 'Like' and 'Comment' on individual pins. The categories page of the Pinterest app lists down all the content on Pinterest, placed under various categories. Your Pinterest profile displays all your boards, pins and likes. The Pinterest free mobile app lets you

sign up for free or login via Facebook or Twitter.

Pillboxie

Considering the crazy lives that we lead, the one thing that we often forget is taking our medicines. There's no surprise that there's an app for that too. Pillboxie is an iOS app that visually reminds you to take your medicine. To make the medication process more interesting, the app lets you choose from pill shapes and colours. Pillboxie then schedules reminders by dropping pills into a pillbox. The app requires no network connection to remind you about the time you should be taking your medication. With Pillboxie on your phone, you'll never miss

out on your medication again.
