

WORD GAMES

It's so easy to get hooked on to word games especially if they're right on your mobile phone! If you love word games as much as we do, you must give our list a peek!

We've been playing word games for as long as we can remember. From puzzles to solving crosswords, or even making up new words, word games have managed to keep us busy for hours. Solving word puzzles in English class as kids was a mandate. Vacations have been incomplete without that board of Scrabble. An evening with friends turns into a fun one only after you've squabbled over a game of Taboo. And let's not forget Hangman; it's like everybody has their own version of the game. Remember how you spent an hour waiting for your date but you didn't really care because you were so engrossed trying to solve a crossword puzzle? That's the power of word games. Which is why, we couldn't have possibly missed out on word game apps for your mobile now, could we? So after hours of scouring and playing and coming up with words that don't even exist, we have here a list of some of the cleverest word games out there for your mobile phone! Say hello to wordy time wasting and goodbye to productivity.
