

| MODEL NUMBER                | MANUFACTURING PROCESS | INSTRUCTION SET | CPU                                                                        | GPU                  |  |
|-----------------------------|-----------------------|-----------------|----------------------------------------------------------------------------|----------------------|--|
| <b>SAMSUNG</b>              |                       |                 |                                                                            |                      |  |
| Exynos 4 Quad (Exynos 4412) | 32nm                  | ARM v7          | 1.4 - 1.6GHz Quad core ARM Cortex A9                                       | ARM Mali 400         |  |
| Exynos 5 Dual (Exynos 5250) | 32nm                  | ARM v7          | 1.7GHz Dual core Cortex A15                                                | ARM Mali T604        |  |
| Exynos 5 Octa (Exynos 5410) | 28nm                  | ARM v7          | 1.6-1.8GHz Quad core ARM Cortex A15 and 1.2-1.4GHz Quad core ARM Cortex A7 | IT PowerVR SGX544MP3 |  |
| <b>APPLE</b>                |                       |                 |                                                                            |                      |  |
| A5 (APL0498)                | 45nm                  | ARM v7          | 0.8-1GHz Dual-core Cortex A9                                               | PowerVR SGX543MP2    |  |
| A5X (APL5498)               | 45nm                  | ARM v7          | 1GHz Dual-core Cortex A9                                                   | PowerVR SGX543MP4    |  |
| A6 (APL0598)                | 32nm                  | ARM v7          | 1.3GHz Dual-core Swift                                                     | PowerVR SGX543MP3    |  |
| A6X (APL5598)               | 32nm                  | ARM v7          | 1.4GHz Dual-core Swift                                                     | PowerVR SGX554MP4    |  |
| <b>QUALCOMM</b>             |                       |                 |                                                                            |                      |  |
| Snapdragon 200 (8225Q)      | 45nm                  | ARM v7          | 1.4GHz quad-core Cortex A5                                                 | Adreno 203           |  |
| Snapdragon 200 (8625Q)      | 45nm                  | ARM v7          | 1.4GHz quad-core Cortex A5                                                 | Adreno 203           |  |
| Snapdragon 600 (8064T)      | 28nm                  | ARM v7          | 1.7-1.9GHz Quad-core Krait 300                                             | Adreno 320           |  |
| Snapdragon 800 (8074)       | 28nm                  | ARM v7          | upto 2.3GHz Quad-core Krait 400                                            | Adreno 330           |  |
| Snapdragon 800 (8274)       | 28nm                  | ARM v7          | upto 2.3GHz Quad-core Krait 400                                            | Adreno 330           |  |
| Snapdragon 800 (8674)       | 28nm                  | ARMv7           | upto 2.3GHz Quad-core Krait 400                                            | Adreno 330           |  |
| Snapdragon 800 (8974)       | 28nm                  | ARM v7          | upto 2.3GHz Quad-core Krait 400                                            | Adreno 330           |  |
| <b>MEDIATEK</b>             |                       |                 |                                                                            |                      |  |
| MediaTek MT6572             | 28nm                  | ARM v7          | 1.2GHz Dual-core Cortex A7                                                 | Mali 400             |  |
