

need to explain social networking to anyone, not even the apps, so we're not going to say anything more on the subject.

Docs to Go

Docs to go has been a BlackBerry stable for many years now, and it's essential for anyone who wants to be able to view or edit Microsoft Office files on the go. You can also create DOC and XLS files on the device itself. Since this has been around for many years now, we're not going to go into it apart from show you a few screenshots so you know how the app looks now.
