

credentials and the restoration starts.

During this process it's better to keep your device connected to a power source. It'll ask for your iCloud credentials multiple times and you can keep track of progress, you can go to Settings > iCloud > Storage & Backup where you will be able to check a progress bar. On the Home Screen, you will notice progress bars underneath all the apps that are being downloaded. If you want the restoration of apps to take place in a sequence of priority; you can tap on the app which has to be restored first.

Restore from iCloud

Restoring from your Computer through iTunes:

Once you reach the Home screen of your device, connect it to your computer where your backup resides. Open iTunes, select your device in the Devices section and scroll down to the “Backups” section. Click on Restore Backup button to start the restoration. The progress bar on the top, let's you keep track of how much of your data is restored.
