

to offer better ads. Limiting AdTracking service will not remove or decrease the number of ads, but the ads that appear will not be based on your interests. To turn on Limit AdTracking option go to **Settings > Privacy > Advertising > Turn on 'Limit AdTracking'**.

CALENDAR

Get used to the new calendar

Calendar app gets complete makeover in iOS 7. This newly designed calendar is difficult to use and is creating lots of confusion for many users. Here are some handy tips to use calendar effectively,

Firstly, you'll see today's page indexed with all the events listed for the day (if you have any). To see events for the next day tap the date in the top area or swipe left in the events area. To see events for the next week swipe left in the top area. Tap on the 'search' button at the top of calendar to get view of day-by-day listing of your events.

Go back to month view

To get month view tap on the back arrow which is followed by month's name and located at top-left. In month view scroll up or down to see previous or the next month.

Navigate between months by scrolling up or down

Go back to year view

To get year view tap on the back arrow which is followed by the year. Similarly scroll up or down to see previous or the next year.

iCLOUD

Sync Keychain with iCloud

In addition to mail, contacts, calendar entries etc iCloud can now sync your usernames, passwords and credit card information across devices. All the passwords stored in the Keychain of your Mac will also synchronize with it. To enable iCloud Keychain go to **Settings > iCloud > Keychain > Turn it on**.

Reactivate with a password

Apple's 'Find My iPhone' service goes to a whole new level. A new feature called as 'Activation Lock' lets you put an additional password to Find My
