

COMPARISON BETWEEN THE BEST ONLINE SUITES

The battle to be the best office suite in the cloud has never been more hotly contested. It's not as straightforward as it seems either.

It wasn't too long ago that Microsoft Office was the only viable alternative when it came to a productivity suite on the PC. Today, Office, while still popular, is only one of the suites that you can opt for when you want to work with documents, spreadsheets and presentations. Google Drive has jumped the line in terms of popularity and is almost as ubiquitous as Office was back in its heydays and, thanks to the overwhelming user base of iDevices, Apple's iWork (that's made up of three separate software – Pages, Numbers and Keynote) has also made its presence felt in all manner of tech products such as desktops, laptops, tablets and phones.

That's why it really isn't a long shot to imagine that plenty of users would be confused about which suite to opt for. So, let's get down to helping you decide:
