E-learning apps for Holy Books Bible

As in all holy books the bible has a wealth of information to offer. There are many who wish to read and learn all that it has to offer but who get overwhelmed and loose track somewhere along the way. The Bible app has simplified learning the Bible by coming up with reading plans where the user goes at a constant pace.

You can choose how you want to study the Bible. Whether you want to learn the entire Bible, or only certain parts of it, and if so which ones. There are reading plans available to suits your needs. It breaks down the Bible into sections. Each day you have a certain quota that you are supposed to complete. You can even ask for reminders to be set.
