Learn Quran

This is an app that allows you to learn with a teacher or on your own. You can use Learn Quran anytime, anywhere. The app complies with Nur Romadon a Quran learning methodology developed by professional Quran teachers. There is a voice narration feature that allows you to learn the pronunciation. You can record your own voice to get it evaluated or compare it to the correct

pronunciation. This app uses a professional Quran reciter by the name of Al-Hafiz Khoirul Muttaqin Lc for all the narration.

E-learning apps for Music

App developers have brought the basics of learning music to the mobile. While nothing can replace learning music on an actual instrument, these apps help you develop and perfect skills required while learning music. They train you to be better at reading music, identifying notes by listening, speed reading. And of course you can use them anywhere you can even practice on the way to your music lesson.

Note Perfect

Note Perfect is a music learning and training app. It is not specific to any instrument, it just teaches you how to learn and identify musical notes better. There are different levels you can play at depending on whether you are a beginner or a pro. You can also choose between the four clefs – treble, bass, alto, tenor.
