

Chapter 7 and 8 speak more in detail about the workflow and approach required to edit video and audio media. You'll learn which unique techniques and skills are required to make an attractive multimedia project. The final two chapters present you with the essential "Dos and Don'ts" and "Tips and Tricks" which will make your journey into editing easier and less challenging.

As always, we eagerly look forward to your thoughts and experiences with this edition of Fast Track. Send us your thoughts and videos at: editor@digit.in
