

- ▶ **Attack** - This is the time taken for a sound to achieve its maximum level. Stringed instruments have a slow attack, percussion instruments have a fast attack.
- ▶ **Bit Rate** - The number of bits recorded in a unit measure of time is a bit rate. A lower bit rate means less info is recorded while a higher bit rate denotes the opposite.
- ▶ **Channel** - A single strip of controls on a mixer appended to an input. It includes the gain, the EQ, the fader and anything else that comes along the line.
- ▶ **Dry** - A dry track is one without any effects.
- ▶ **EQ** - Short for equaliser and is a series of controls that boost or cut specific frequencies of a track/ channel.
- ▶ **Filter** - An effect applied to a track with the purpose of adding or removing specific qualities.
- ▶ **Gain** - The amount by which a signal is amplified. Gain raises the noise level as well.
- ▶ **Hiss and Hum** - Noise caused by electrical interference. Hum is low frequency.
- ▶ **Initialise** - To restore a device to its factory settings.
- ▶ **Jack** - An audio connector. They come in varying sizes ranging from 3.5mm to 7.6mm and more.
- ▶ **Knee** - A bump in a curve that serves to visually represent gain, EQ or any other effect.
- ▶ **Levels** - It's the strength of the input signal.
- ▶ **MIDI** - Musical Instrument Digital Interface, a communication protocol between the computer and an instrument.
- ▶ **Normalizing** - An application of constant amount of gain across a track to bring it to a target level.
- ▶ **Phantom Power** - Microphones are of two types- dynamic, which don't require external power and condenser that run on external phantom power of 48 volts.
- ▶ **Reverb** - Created when sound waves reflect off multiple surfaces in a small space.
- ▶ **Solo** - To isolate and play a single track.
- ▶ **Tinnitus** - A ringing in your ear brought on by listening to loud music.
- ▶ **Wet** - The opposite of dry- sound with effects on it.
- ▶ **XLR** - A cable used to carry signals especially from microphones.
- ▶ **Zymurgy** - The process of brewing. Go brew some music.
