

What colour is a tennis ball

The internet is again divided on whether a tennis ball is green or yellow, the correct answer is that it is Optic Yellow. <http://digit.in/optcylw>

Water from Air

Researchers at MIT have designed a system that extracts water from the atmosphere, even in extremely arid regions. <https://digit.in/a2w>

from the library sizes, each streaming service have a plethora of stations and curated playlists.

Apple is well ahead of everyone else with a vast library of 45 million songs. That lead compared to the closest competitors, Google Play Music or Amazon Prime (at 40 million tracks) is more than the total library sizes of

some of the streaming services on the list, such as Wynk or Hungama. While Apple has a massive library, for users in India, the actual tracks available may not be the ones available even on Wynk with a much smaller library. The personal recommendations are updated on a daily basis. Apple has on offer some bizarre exclusives, includ-

ing footage from concerts, documentaries about artists, and TV shows. Curiously enough, the actual audio shows, known as podcasts, have their own separate app.

The focus is on the individual user, as the first set of playlists that Apple shows in the app are not pre-populated. Instead, they are there to give you a
