

ISRO to make space cells

ISRO has announced a tie up with BHEL to manufacture space grade lithium ion cells, to be used as power supplies for satellites. <https://digit.in/spacecells>

The red spot is shrinking

Data from the Juno spacecraft shows that Jupiter's great red spot is reducing in diameter and growing taller at the same time. <https://digit.in/shrinkspot>

headstart into creating your own playlists. The playlist section does offer a wide variety of curated playlists, with some innovative and interesting selections such as “It’s Lit!”, “Relationship Goals” or “ ‘90s Electronic Workout”. The content is peppered with some Indian tracks, albums and playlist, but you will find plenty of western content

which pushes music that few local users would want to listen to (Barney Essentials or Classic Children’s Songs).

All the features are stripped down to their essentials. There is only one radio station, and the other curated selections are in the form of playlists. In all, the biggest plus for Apple is simply its large music library.

Wynk arranges the content according to the languages selected. The problem is the first language in the list is prioritised for the content. Marathi and Hindi are above English on this list, and the experience of using the app changes if you choose to using English only. However, it is not what you would expect as some sections, in-
