

GEEK CULTURE IS OUR WAY OF LIFE, AND ENCOMPASSES MOVIES, GAMES, COMICS, AND TRENDS FROM ACROSS THE GLOBE

INSIDE

THIS MONTH IN CULT:

We've been seeing a lot of sci-fi TV shows pop up recently, so we decided to list down our favourite sci-fi books that we believe would make for awesome shows. That being said, Boo-Man, as usual, is pretty pissed - this time about fake switches on Mechanical keyboards. Happy reading!

JL to have anti-life equation?

Another day, another revelation on Zack Snyder's vision for Justice League. In the ancient battle scene, when Steppenwolf slams his axe on the ground, a mysterious symbol probably depicting the anti-life equation appears. On being asked, Snyder just mentioned, "Do the math".

WHAT'S NEW

Avengers: Infinity War will explore Thanos' origin

After six years of teasing Thanos across several MCU movies, he's finally coming for the Infinity Stones. Most of the popular superheroes in the franchise have gotten their own origin stories. And now the tables are turning where the most anticipated villain will get his own origin story in Infinity War. Screen Rant had an interaction with the writers of the movie, Christopher Markus and Stephen McFeely. They mentioned that they don't want to depict Thanos as a "relentless machine collecting stones like he's going shopping". It does make sense to build a backstory so that all his intentions make sense in the movie. In an interview with Entertainment Weekly, Kevin Feige revealed Thanos' motivation behind collecting the stones to be of bringing

balance to the universe. The final trailer also showed some glimpses of the father-daughter relationship between him and Gamora. We are guessing the story might put the audience in conflict about choosing whether Thanos is the bad guy, even though his methods are extreme.

Deadpool is here with the X-Force

The Merc with a Mouth is back in a new trailer and they have finally revealed the official title of the movie. Nothing extraordinary, they are simply calling it Deadpool 2. The previous trailer showed some more of Cable played by Josh Brolin and the latest trailer gives us a peek into new characters. We already knew about

Domino from the image reveal, and also had an idea that Terry Crews is there in the movie. The first woman appears to be an X-men member called Surge

who has a long chain with electricity running across it. Rob Delaney is also seen in the movie as an X-Force member and then finally we get

to see Bill Skarsgard from IT. The movie is expected to pick on several franchises including Brolin's own character, Thanos.

The Karate Kid returns

Remember Mr. Miyagi from the original Karate Kid movies? Not the Jaden Smith one. If you do, it's coming to YouTube Red as Cobra Kai and the bad guy is the good guy.

Chris Evans is done

According to New York Times, Chris Evans will be done playing Captain America after Avengers 4. He said, "You want to get off the train before they push you off".
