

TV SHOW

Mute

★★★★☆ | Mute is a story about an Amish man who has refused to get corrective surgery for an accident he suffers as a young child. For this reason, he can hear, but is unable to speak. As an adult, he works as a bartender, and one day his girlfriend mysteriously goes missing. The rest of the movie is his quest to find out what happened to his girlfriend. The movie starts off normally, but then suddenly throws you into the middle of this cyberpunk world. Instead of a Neo Tokyo, the events in the movie take place in a Neo Berlin. There are similarities to Blade Runner and The Matrix. All the expected elements are here, including a seedy underground black market, flying cars, and dark cityscapes with colourful boards. There are two cybernetic surgeons who perform illegal surgeries, called Bill and Duck. They are trying to escape the city, and have some dark secrets of their own. With these two, Mute unflinchingly explores the dark side of future technologies, as well as human nature. Predictably and satisfyingly, Mute transforms into a revenge flick - with some not so comfortable-to-watch parts. The movie has some pretty solid names. Alexander Skarsgård plays Leo, the mute bartender, Paul Rudd of Ant-Man fame plays Bill and Justin Theroux plays Duck. Mute is directed by Duncan Jones who has previously directed Moon, Source Code and Warcraft. Appreciating the movie takes a bit of patience, and Mute is not a movie for everyone.

COMIC BOOK

Sea of Thieves

★★★★☆ | Sea of Thieves is an upcoming video game but turns out there's also a comic book and we managed to get our hands on it. As far as we know, the actual game doesn't really have a story or plot to it and is largely a multiplayer experience, but we may be wrong. So we can't tell as of yet if the comic is linked to the game's storyline.

Back to the comic itself, Sea of Thieves begins with DeMarco Singh, son of the greatest pirate to ever sail the Sea of Thieves, and Rin Arai, champion marksman, entering DeMarco's late father's bar, "The Unfired Pistol".

The deal was that he would take her with him to the Sea of Thieves, which apparently had untold riches for the taking. Of course, it was also notoriously difficult to get there unless you had a special map. Being the son of the greatest pirate to ever sail the Sea of Thieves has its perks, so he was about to get a map at his late father's bar.

Turns out, DeMarco has a twin sister, Lesedi Singh, who's already at the bar with her crew and she wants the same thing. She's also visibly more pirate-y than DeMarco and clearly cares more about living up to their father's reputation than he does. There's a colourful cast of characters in the comic, with the usual pirate stereotypes we've come to expect from a pirate-themed, well, anything.

All in all, the comic actually had a somewhat gripping storyline and works out as a great introduction to the Sea of Thieves (not the game, but the place rather).

UP AND COMING

MOVIE

Rampage

Featuring Dwayne "The Rock" Johnson who is Hollywood's golden boy right now, Rampage is set to release early in April and is loosely based on a video games series by the same name.

Release date: April 11

MOVIE

Avengers: Infinity War

The biggest Marvel movie yet featuring just about everyone you've seen in a Marvel movie ever. Are you excited yet?

You should be. Thanos is coming and we can't wait.

Release date: April 25, 2018

TV SHOW

Westworld: Season 2

We were big fans of the first season of Westworld and how they had depicted AI. We're definitely interested to find out what happens after the events of the first season.

Release date: April 22, 2018
