NEW DOOM MOVIE

WHAT'S NEW

Batman goes back to feudal Japan

The first trailer of Batman Ninja was surprisingly brilliant, that got us hyped about it. Batman is sent back in time to feudal Japan where an alternate timeline exists with all the known characters including allies and villains. He's joined by Alfred, Robin, Nightwing and Batgirl along with villains such as Joker, Penguin, Two-face, etc. Being in feudal Japan, Batman obviously doesn't have access to his cool gadgets but he has equivalent tools from that time so that he can do what he does best. The animation looks impressive as all the characters receive a facelift with Japanese culture aesthetics from that time. Naturally, Katana fights and martial arts are going to be present throughout. From a recent video clip, we finally get to see how they travelled back in time in the first place. The clip comes from the

Playstation channel where Gorilla Grodd is working on his latest invention while Batman and Catwoman try to stop him. This takes place in Arkham Asylum but they aren't able to stop him and end up going back in time. Will they get to return to their original timeline? We'll soon find out.

Fantastic Four rumours addressed

With Fantastic Four, Deadpool and X-men coming back to Marvel, it's only a matter of time until they make their way into the shared universe. For now, the deal hasn't finalised yet and it will get over by 2019. Under Fox, it is rumoured that X-men:

Dark Phoenix is going to be their last movie before all the characters are merged into the MCU. This opens up hundreds of possibilities of how these new set of characters could be

introduced into the MCU timeline. After the terrible Fantastic Four reboot, fans are looking forward to the well-deserved treatment from Marvel. There have been discussions on their possible appearance in the second part of Avengers: Infinity War.
