

**BMW 8 Series reveal**

The Production BMW 8 Series coupe to be unveiled one day prior to the Le Mans races. <https://digit.in/jun18-A59-1>

**Assange costed millions**

Julian Assange's protection by the Ecuadorian government might have costed an average of \$66,000 per month. <https://digit.in/jun18-A59-2>

**FUJI INSTAX SHARE**

The Fuji Instax Share is a portable wireless smartphone printer, that lets you use your smartphone like a polaroid camera. Neat, huh? It works with Android or iOS devices, and the app also allows you to add text overlays. The Instax Share is priced at Rs 19,915, and prints on Mini instant film.

**CABLE PROTECTOR**

You should be able to pick up between 8 to 10 of these for less than Rs 200, and they are, truly, a godsend. These little sleeves will protect your cables from getting frayed and prevent you from having to buy new ones, especially in those fancy new devices where you can plug the charging cable in both ways.

**CUSTOM CASE**

Instead of hunting around for the perfect case for your smartphone, you can just order one that is exactly the way you want. Yourprint.in offers cases for a large number of models, and there are even some unique designs available that you can customise over. It's a one stop shop for all smartphone case needs.

**SONY QX30**

The Sony QX30 is an entire camera in the form factor of just a lens. The smartphone is needed only to control the camera. The QX30 is versatile since it is compatible with Android as well as iOS devices. The camera costs Rs 51,911, but there are older versions available for cheaper.

**EARPHONE SPLITTER**

If you are sharing the music on your phone with someone, there is no need to listen to only half the song. Dump this inconvenience and get yourself the Belkin Rockstar lets you split a source five ways, for just Rs 1,000. That is if you are one of those peasants who still has a headphone jack in their phones.

**SLIDER**

You can get nice panning shots, or stop motions, using a slider. These sliders can handle dSLRs as well, and you might need to get a smartphone mount. Proaim and Camtree models are available in India, but the Mobislyder is a good choice that is available at international stores.

DIY

SELFIE LIGHT

Commercial selfie light attachments are available for anywhere upwards of Rs 160, but you can make one yourself for as little as Rs 80 by attaching an LED light strip to a 9 volt battery. You can also shape your lights by placing LEDs in a cardboard circle or a diamond, which gives nice reflections off the eyes. You can use these as backlights for highlighting your hair.
