

The Digit Test Centre receives hundreds of products every month. Each of these products is put through a series of tests and is finally given a score. The final score is arrived at after considering a number of factors and evaluating them in terms of features, performance, value for money, build quality, and, in the case of software, even ease of use.

For better understanding of our ratings, here's a quick guide to our overall score

10

30

Extremely poor product.

Keep away!

31

50

Strictly OK.

Not recommended

51

70

Decent product.

Go for it, but there may be better products out there.

71

90

Very good product.

Highly recommended.

91

100

Ground-breaking product.

We've never seen anything like it before.
A definite must buy!
