You'd think that the month after our June Anniversary edition would be a slow one where the weary edit team could take things down a notch and recuperate from what ends up being an incredibly taxing month. No. Never. Not. It was because of this teensy convention called COMPUTEX which had Mithun and Abhijit out of office for an entire week. Quiet boy Manish had his first dose of mainstream limelight this month as he got invited to be part of a TV episode around E3 on Bloomberg Quint. It seems the lad's getting noticed as a gaming journalist and the rest of the team couldn't be any happier. Last we heard, they were planning on building an entire series with Manish in the forefront. Perhaps a weekly podcast, what do you guys think?
