ISSUE 08

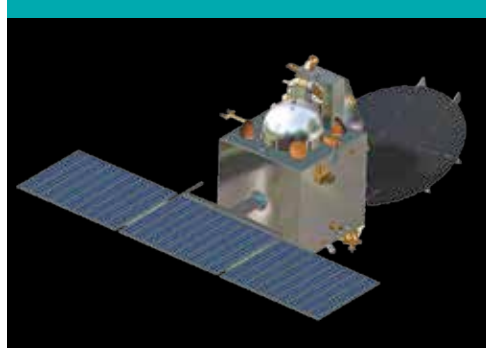

COVER STORY
PAGE 66-79

Aiming for the Stars

Celebrating India and our achievements in space exploration, military tech, startups, agriculture and even some of the hiccups we are going to encounter.

SCIENCE - PAGE 59-65

60 | Mangalyaan: Still Alive

Four years after demonstrating ISRO's capability for an interplanetary mission, Mangalyaan continues to beam back data and shows no sign of stopping.

62 | A tale of chips

Could Gallium Nitride be the knight in shining armour in India's semiconductor story?

65 | Natural Wonders of India

From unique crater lakes in basaltic rocks, to mysterious "ghost lights" without an established scientific explanation, there are many natural wonders to be witnessed in India.

AND MORE

CULTURE - PAGE 53-58

56 | India's comic book dream

The comic book scene in India is about to explode – if you can light the fuse.

54 | Smart-phoney?

Boo-Man isn't too impressed with the state of the "Indian" smartphone industry.

58 | Photos taken from Indian spacecrafts

Through the course of their missions, the Earth Imaging Satellites, interplanetary missions and astronomical instruments of ISRO have captured some stunning images of everything from worlds to galaxies.
